---

We have a plan to ensure a free, democratic, and safe society for all Australissians. Through the Conservative Party, we can enforce our policies and make our ambitions a reality. We can become a prosperous and united micronation amongst others like New Virginia, Adammia, Austenasia, and more. We believe we can, and we believe we will.

Embrace the Blue Wave, for it has begun!

# FOREWORD

Australis has the wealth and resources to do great things. We can build an economy that gives everyone a fair share. We can create a humane, caring, and appreciative society that supports everyone's needs. We can be a micronational leader in tackling the threat that is socialism.

Sadly, our current politics -- dominated by no one but the Privy Council and the power of vested interests -- are failing to realize our potential.

Our manifesto is a bold plan to create a more equal, more democratic, and more just society while doing our part to take care of the people of this great nation.

The socialist experiment has failed, as it has since it was founded. Most people have seen their living standards fall, while the top-dogs increased in wealth and power.

Our party will ensure that the threat of socialism is handled seriously. We do not apologize for being bold, ambitious, or having a long-term vision for this country.

We believe that we can build a society that works for the common good -- and that we can ensure peace, prosperity, and a working class for all Australisians.

# ECONOMY

## Our commitment to you:

Your job, your home, the territory you live in, the school your children go to, your own pension – all these things depend on a strong economy.

Our party will ensure working through our long-term economic plan. We will:

- keep our economy secure by making a surplus so that we start paying members of parliament, and other ministers
  - keep the market free for all citizens and government workers
  - pursue our ambition to become the most prosperous micronational economy in the world.
- 

Our long-term economic plan is forming and making the Australis economy the biggest micronational economy in the world, with a free-market.

- Holding on to state industries creates an ineffective industry due to a lack of the need for competitiveness and innovation. We need expansion in the form of public companies
  - In a good market, there is always competition, this cannot exist if the government is a player on the market.
- Monopolies are bad for the government, it is not in the national interests and thus the government must act to break them up. In light of this, the government shouldn't create monopolies either.

As Australis is merely a micronation, it is impossible to enact an income, corporation, or any other sort of tax. In order to collect funds for this nation, the citizens should be able to contribute to the Patreon, helping fund ideas and aspirations for this nation.

We stand by the idea that all companies will be treated equally, and the workers cooperatives shan't be prioritized. The socialist threat is too far gone to support this economy.

# DEFENSE

## Keeping Australis safe:

We need to maintain a balanced defence budget and give the Royal Australissian Defence Force the equipment they need. To keep this country safe from outsiders is an important goal. We will:

- ensure a well-funded Defence Force by continuing to build a stronger economy
  - ensure a well-staffed Defence Force by recruiting members
  - ensure there is value in protecting this country we love so dearly
- 

While being headquartered in Integritas, currently the Defence Force only has four active personnel. Yes – only four. Three extra units are in reserve. For only having four active personnel for four exact branches is a worrying sight for this nation. We will work with any members of the force, government, and the Grand Duke himself to corroborate the Defence Force is strong and well-staffed to support the many territories Australis has.

As Australis is merely a micronation once again, we must be cautious with a military. Many micronations use a “military” to leverage “war” against others, and disrupt the active professional class of micronations. Let us not only support our military, but use it ceremonially to honor the fallen, the Grand Duke, and the symbolic representation of the strength in this country.

# SECURITY

## Personal data of citizens:

Micronations fear the threat of outsiders trying to breach defences regarding security of inhabitants and the overall protection of the nation. We will:

- ensure data of citizens is protected
  - ensure data of citizens is up-to-date
  - ensure data of citizens is consensual, and that the citizen holds right to them
- 

Citizens are and should be the number-one priority for this nation. They decide who wins in an election, who runs the country, and how they are governed. Protecting them not only by military defence, but cyber defence is a major keystone to keep Australis a high-quality micronation.

The Conservative Party is willing to draft a data-security act for the citizens when elected, and will continue under all of our power to protect the data and rights the citizens hold with them.

We will always do whatever is necessary to protect the Australissian people.

# MICRONATIONAL DEVELOPMENT

## Growth of our nation in many sectors:

A micronation does not grow easily, we need citizens with different views and characteristics to help build a vibrant and passionate nation. We will:

- ensure promotion of immigration
  - ensure activity and contribution of citizens
  - ensure the national interest of furthering the society norms of this nation
- 

The Conservative Party believes in furthering the development of any nation by means of immigration, contribution, and dedication.

We make certain that us, the Conservative Party – if elected, will actively work to get citizens contributing, growing our population, and making sure our society is equal amongst odds.

Equality is a matter not just of goods, but of treating people fairly – celebrating diversity rather than punishing it. The Conservative Party will always aim to treat everyone equally and fairly.

We shall always support proposals to set up an Equalities Committee, regarding race, sex, and gender. We also support campaigns to advance LGBTQ+ rights and aims to build a society where everyone is valued, respected and empowered, regardless of their sexuality or gender identity.

Let us continue supporting all the interests of helping citizens, and do our best to ensure a safe, protective, and loving society.

# CONCLUSION

## THIS IS OUR DETAILED PLAN.

Our plan to further the progress of this micronation.  
Our plan for you and to ensure you are safe

## WITH SIMPLE CONSERVATIVE IDEAS.

Those who work hard and do the right thing must be rewarded.  
Everyone should be able to rise as high as their talents and effort will take them.  
We measure our success not just in how we show our strength abroad, but in how we care for the citizens.

## ABOVE ALL, WE MUST DEVELOP THIS NATION.

Australis has the potential to become a great nation – only you, the citizens can make it one. Developing this nation through legislation will help improve our level of ability, and ensure the professionalism of said country.

Together, we can improve this nation.  
We can secure better future for you and the rest of Australis.  
Let us keep moving forward; and set our sights on making our country greater!
